Professional Profile

Multidisciplinary professional with over 5 years of experience bridging the gap between MEAL (Monitoring, Evaluation, Accountability, and Learning) and Software Engineering. Expert in designing digital data systems for humanitarian and development programs in Haiti. I offer a unique hybrid profile: the analytical rigor of an Applied Economist and the technical capability of a Backend Developer. I specialize in automating data pipelines, building real-time dashboards (Power BI/Azure), and optimizing digital collection tools (CommCare/ODK) to drive evidence-based decision-making in fragile contexts.

- Core Competencies
- **MEAL & Digital Transformation:** Expertise in logical frameworks, IPTTs, and transitioning programs from manual to digital-first data systems.
 - **Data Infrastructure:** Proficient in Azure-based architecture, SQL/PostgreSQL databases, and Python-led automation.
 - **Digital Collection Tools:** Advanced implementation of CommCare, mWater, KoboToolbox, and XLSForm/ODK standards.
 - **Visualization & Reporting:** Expert in Power BI, Looker Studio, and Quarto for donor-ready, real-time crisis analytics.
 - **Stakeholder Coordination:** Experienced in aligning technical tools with government standards (DINEPA, MSPP) and inter-agency clusters.

Professional Experience

Feb 2026 – **Software Engineer**, *Tekkod LLC*, Remote

- Present
- Leading the modernization of mobile infrastructure to ensure data security and offline-first reliability.
 - Migrated architecture to Java 17/Gradle 8.8, optimizing systems for high-performance data processing.
 - Enhanced operational visibility through advanced real-time dashboards in Looker Studio.

Jan 2026 – **Data Analyst & MEAL Consultant**, *Anseye Pou Ayiti*, Remote

- Mar 2026
- Implemented Key Performance Indicators (KPIs) for multi-sectoral leadership monitoring.
 - Designed data collection strategies using ODK and Google Forms, ensuring rigorous validation protocols.
 - Maintained AWS-deployed scripts and administrative panels for system-wide data integrity.

Oct 2023 – **mWater & Data Analyst Consultant**, *HANWASH*, Remote (Upwork)

- Jan 2026
- **MEAL Design:** Refined project MEAL plans and Indicator Tracking Tables (ITT) for WASH programs.
 - **Survey Design:** Deployed complex digital surveys and resolved field collection issues to maintain 100% data integrity.
 - **Automation:** Built automated dashboards on mWater and Power BI for real-time stakeholder reporting.

Oct 2021 – **Monitoring & Evaluation Officer**, *Impact Youth Project, Caris Foundation*
Aug 2024 *International*

- **System Design:** Built digital collection systems using CommCare, optimizing data flows for multi-site health programs.
- **Reporting Automation:** Developed automated activity reports using Python and SQL, reducing manual processing time by 40%.
- **DQA Protocols:** Established and supervised Data Quality Assessment protocols for MySQL-integrated data.

Nov 2015 – **Software Development Consultant & Data Specialist**, *CassionSoft (UNOPS*
Mar 2021 *Project)*

- Implemented secure authentication and REST APIs for large-scale data integration projects.
- Ensured technical logic validation through unit testing for critical data workflows.

Technical Skills

Digital Tools **CommCare, ODK, XLSForm, KoboToolbox**, mWater, CommCare, HIVHaiti
Data **Power BI (Expert)**, Looker Studio, RMarkdown, Quarto, Python, Pandas, SQL
Science

Infrastructure **Microsoft Azure**, AWS, Google Cloud, Docker, Git, BigQuery, SQL Server
Languages French (Native), English (Fluent), Haitian Creole (Native)

Education

2010–2014 Advanced Studies Diploma in Applied Economics, C.T.P.E.A

2009–2010 High School Diploma (Honors), Institution Saint-Louis de Gonzague
